

## Creating a YouTube Account and Uploading Your Video

### Step 1

You can download the YouTube app or type YouTube into Google Search. You will need to create a Google account or Gmail email address. I would suggest downloading the app on the device that you take the video with. This will save transferring large files from device to device and is preferable from a Safeguarding perspective. Click on **CREATE ACCOUNT**

### Step 2

Click on **FOR MYSELF**

### Step 3

Fill in your details. Make sure you remember the password that you choose.

## Step 8

This is where you can make your video **UNLISTED**. This means only people with the link can view it. Click on **PUBLIC**, you will be given a list of options, choose **UNLISTED**. You can now give your video a **TITLE**. We would suggest the participants name, horses name, RDA group and class entered. You don't need to add description.

## Step 15

If you have uploaded your video as private and need to change it as unlisted go into your list of video and hover over the word private. This gives you a description of what the setting private means.

The screenshot shows the YouTube Studio interface for the channel 'Clwyd Special Riding Centre'. The 'Videos' tab is active, displaying a list of uploaded videos. A tooltip is shown over the 'Private' status of the video 'Robbie Wilson riding Erik doing the Countryside Challenge at Clwyd Special Riding Centre for the...'. The tooltip text reads: 'Private.
